

SURFACE INSPECTION  
COMPLIANCE REPORT

Date of Inspection: July 17, 1995

Case Serial No.: UTU-072854

Operator: Northern Stone Supply

Project Description: Quarry "Zebra Rock"

Legal Description: T. 23 S., R. 13 W., sec. 15 NW/4

District and Resource Area: Richfield\Warm Springs

Inspector: Larry Garahana

REPORT NARRATIVE (REFERENCE STIPULATIONS BY NUMBER OR TITLE)

This is the first inspection that has been done on this notice. We were informed on September 6, 1994 that Northern Stone Supply had acquired the Ebony and Ivory #1 claim from Steve Hodges, and <sup>was</sup> ~~were~~ planing to quarry "Zebra Rock" from it.

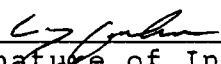

I inspected this site in August, 1994, at that time it was still under Steve Hodges notice.

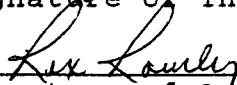

When I arrived at the site I noticed that a sign had been posted by Northern Stone that states, "MINING CLAIM", "NO TRESPASSING OR REMOVAL OF STONE", "VIOLATORS WILL BE PROSECUTED", "FOR INFORMATION CONTACT NORTHERN STONE SUPPLY", and then it has their address and phone number. I checked the notice and there is no mention of posting any signs in the area of their operation.

I parked my truck by the sign and walked up to the area of disturbance. They had blocked the road with boulders approximately 75' from the quarry. The area is roughly 100' x 50', and has two tiers that they've mined. There is also a road that leads to another area, this area is approx. 20'-25' in diameter <sup>and</sup> ~~that~~ is located west of the initial disturbance.

I noticed there were 4" PVC pipes that were placed in what I believe to be the corner markers for this claim.

I recommend that we contact Northern Stone and inform them of our policy toward the posting of signs, what they need to do, and what they can or cannot say.
